

TASK 1:

RESPONSIVE PORTFOLIO WEBSITE

1. **Introduction:** this task was about building a responsive website using Flexbox/Bootstrap or Grid and with help of HTML5 CSS3 and JS was optional.
It contains multiple sections for each purpose like Home About Contact Projects Skills.
2. **Aim/Goal:** To build a responsive portfolio website which works on different devices and screen sizes.
3. **Tools Used:**

HTML5

CSS3

FLEXBOX

4. FEATURES:

Responsive navbar with smooth scroll and linking sections.

Home section: Introduction

About section: Interests

Skills section: my tech skills

Projects section: my project demonstration of tech skills.

Contacts section: my pseudo contact information included.

Fully responsive layout used Flexbox basics.

5. Screenshots/Proof:

Below are proof of my work all rgb values are selected by me and I have made layout and structure from scratch.

Hello, I am Namrata Rawat

Front End Developer Intern @InternSpark

About Me

I am a BTech CSE core student.
